The HUD/VASH vouchers are a voucher that provides rental assistance for homeless veterans with case assistance management and clinical services provided by the US Department of Veterans Affairs. VA provides these services for participating veterans at VA Medical Center and Community Based Outreach Clinics (CBOC). Every year VA and HUD awards these vouchers based on geographic need and public housing agency administrative performance. The allocation process for these vouchers is a collaborative approach that relies on 3 sets of data – HUD's point in time data submitted by Continuums of Care (CoCs), VAMC data on the number of contacts with homeless veterans and the performance data from PHAs and VAMCs. Since 2008 HUD award approximately 10,000 VASH vouchers.
